KLM has taken among the following measures to reduce the inconvenience for customers that travel from or via Amsterdam. The measures are effective until 28 August.

- Restricted sales of remaining seats on KLM and KLM Cityhopper flights to European destinations. This to free up space for customers whose flight has been cancelled or that missed their flights due to long queues at Schiphol.
- Customers, whose flight is cancelled, will be informed in a timely manner by KLM or their travel agent and rebooked onto a different flight. In most cases, this flight will depart on the same day or as close as possible to the original booking.
- Increased options to rebook via the self-service kiosks. Specific, more flexible, options to rebook due to the situation may apply. Check our rebook policy on [Airfrance.com](https://www.airfrance.com) or [KLM.com](https://www.klm.com).
- Cancelling 10 to 20 return flights to European destinations every day.
