### **About Airlink**

Airlink is a privately-owned regional airline serving a comprehensive network of smaller destinations throughout Southern Africa. We operate independently under our own unique 4Z flight code, offering our customers more freedom, more choices and more travel opportunities.

Look out for the Airlink sunbird on our striking new livery. Like our colourful feathered mascot, we are Southern Africa's busiest airline and also its largest (measured by the number of flights we operate) carrier. In 2019 our fleet of more than 50 modern commercial jetliners carried two million customers on more than 63 000 flights, on 55 routes to 39 destinations in nine African countries and St Helena Island.

Airlink is proudly the most punctual South African airline for 2020\* with an on-time performance consistently better than 95%. This illustrates our determination and unwavering commitment to put our customers first by providing excellent and reliable service.
