Delta Air Lines is expanding its South Africa network, introducing a new, seasonal “triangular” route from Atlanta-Johannesburg-Cape Town-Atlanta starting 2 December 2022. The four-times-weekly route will complement nonstop service from both Cape Town and Johannesburg to Atlanta, meaning both cities will have daily operations to the U.S. by the end of this year.

This new nonstop service from Cape Town to Atlanta provides convenient connections to numerous cities in North America onboard its state-of-the-art Airbus A350-900, featuring the award-winning Delta One® suites, the new Delta Premium Select cabin, Delta Comfort+® and the widest Main Cabin seats of Delta’s international fleet.

The initial schedule will commence with a four times per week seasonal triangular service, effective 2 December 2022 through to 25 March 2023. This inbound flight will stop in Johannesburg before continuing to Cape Town. Effective 18 December 2022, an additional flight will operate nonstop between Cape Town and Atlanta three times per week year-round.
