MAHE ISLAND DISCOVERY

Mahé is the main and the largest island of Seychelles. Home to Victoria the smallest capital in the world, known for the vibrant and colorful covered market and the miniature Big Ben.

Mahé Island bears the majority of the Seychelles population. The island is famous for its golden sandy beaches, richest, and most preserved national parks, that provides explorers with a wide range of activities. Mahé is also rich in history as the very first settlers anchored and disembarked on the Island and allegedly scattered and buried a number of treasures all over this precious little paradise.

DISCOVER THE ISLANDS

The Inner Island of Seychelles are scattered between granite Islands and coral islands which are accessible from the main Island. Slightly over a dozen of them has inhabitant's while the majority remains uninhabited. The Islands consist of nature reserves which contain the largest population of Coco de mer, a variety of reptile species, and birds in the midst of being extinct roam around freely.

On the other hand, our Outer Island comprises of 72 low-lying atolls and sand dunes not more than a few meters high known as Coralline Island. These Islands are sheltered and engulfed with Palm trees and scrubby plants. Among our Outer Islands, Seychelles has typical atolls with coral reefs and lagoon.

Our farthest Coralline Island, Aldabra has developed a mysterious, eroded, lunar formation and has the biggest lagoon. This Outer Island, is home to over 180 bird species, has the largest population of giant land tortoises in Seychelles and is known a popular nesting ground for turtles.
