

DATE: 06 SEPTEMBER 2022**MEMO: KENYA COVID TRAVEL UPDATE**

Dear Valued Partner,

Please be advised that, KQ guests will be required to complete the below for travel to Kenya:

- There is still need for all Guests to be either fully vaccinated (At least 14Days from last dose excluding day of last jab) or have a negative PCR (72hrs Validity).
- The vaccination Certificate **must** be uploaded on the Panabios website ([PanaBIOS](#)).
- Children below 12 are exempt from PCR/Vaccination requirements.
- Guests not having a PCR/Vaccination may do a rapid test on arrival at a cost of 30USD.
- There may be need for a further PCR test if a Guest has flu symptoms or tests positive on the antigen test at a cost of 50USD.
- Only passengers with flulike symptoms will have to fill the passenger locator form on the Jitenge app.

Thank you for your continued support.

Best regards,

Kenya Airways Commercial
South Africa
