Latest Update on Travel to and transit in Kenya

Entry into Kenya

All travelers from South Africa, Namibia, Zimbabwe, Botswana, Lesotho, Eswatini and Hong Kong will need to have the following to be allowed entry into Kenya:

- Physical proof of full vaccination (this does not apply to children under 18 years).
- Negative PCR taken 96hrs before arrival in the country (this applies to all travelers except children under the age of 5years).

All other travelers from countries not on the above list, will still need to have a negative PCR (96hrs) if stopping in Kenya.

Transit in Kenya

Transit passengers do not require to be fully vaccinated unless their final destination is Europe, USA and Dubai.

Yours Sincerely,
Kenya Airways Team – South Africa
