Subject: Consolidation of Flights and Time Changes 01 – 03 July 2023

South African Airways, continuously strives to keep you abreast of any forecasted changes that might affect the travel plans of our mutual customers. Due to operational reasons we envisage some consolidation on certain routes and flights during the period 01 – 03 July 2023.

SAA prides itself on providing the travelling public a fleet that performs optimally and to this end will adjust the flying program to accommodate this requirement.

Customers booked to fly on our services on the affected day(s) will be reaccommodated to the next available flight on South African Airways or an alternate date on the same route. We urge our trade partners to manage their booking queues and communicate these changes to our valued customers accordingly.

Assistance for SAA Customers:

Passengers booked on the flights affected by the consolidation will be re-accommodated on the next available flights operated by SAA. Should this date not suite the passenger, the agent may select another suitable date in the same cabin class on the services of South African Airways.
