

TAAG expands the network of destinations in Europe in codeshare with IBERIA

Luanda November 21, 2022: TAAG Linhas Aéreas de Angola has just expanded its network of destinations in Europe and domestic connections in Spain, connecting Luanda to multiple international destinations via Madrid. From now on, TAAG customers and passengers will be able to travel on a *codeshare* basis to London (United Kingdom), Amsterdam (Netherlands), Rome, Milan (Italy), Geneva, Zurich (Switzerland), Brussels (Belgium) and Porto (Portugal). Domestic destinations in Spain are also included, namely Barcelona, Palma de Mallorca, Gran Canaria, Vigo, Malaga, Bilbao, Valencia and Seville.

The *codeshare system* offers customers a number of advantages. Passengers now have more fare options to choose from, wider access to IBERIA destinations available in the system, acquisition of a single ticket (for itinerary on both companies) purchased in local currency and with a guarantee of protection on connecting flights. Dealing with issues such as flight booking, *check-in* and baggage dispatch for trips with a stopover is also more agile and convenient for the passenger, within the *codeshare partnership regime*.

Under the agreement between the two airlines, the Africa-Europe route (Luanda/Madrid/Luanda) is operated by TAAG, with the Europe-Europe connections carried out by IBERIA.

TAAG thus remains committed to offering a quality service to the customer, contributing more and more connectivity in the offer of international destinations.

About TAAG

TAAG – Angola Airlines – was founded in 1938 and is based in Luanda, the capital city. For over 80 years TAAG has been connecting Angolans through domestic and international connections. TAAG is a leading company in the aviation market in Angola, recognised globally and with sustained growth, currently offering 14 domestic destinations and 12 international destinations. In addition to passenger transport, its fleet also transports cargo, an increasingly essential service for the development of the local ecosystem. TAAG takes deep pride in its history, service and focus on continuous improvement.
