TAAG Launches Fastest Johannesburg - Lagos Connection

TAAG Southern Africa will be connecting Johannesburg and Lagos faster than any other airline, starting 7 October 2021.

Johannesburg, 4 October 2021: As part of its gradual resumption of international flights, TAAG Southern Africa will recommence flights between Johannesburg (South Africa) and Lagos (Nigeria), boasting a faster service than any other airline.

"It gives me great pleasure to confirm the relaunch of our Johannesburg-Lagos service, and to reconnect these two African powerhouse cities," comments Gregory Epps, TAAG's Regional General Manager Southern Africa. "In addition to business travellers, we look forward to welcoming onboard the many Nigerians living in South Africa who have been dreaming of visiting their relatives back home."

According to Epps the total travel time from Johannesburg to Lagos will be just 8 hours or less, which compares extremely favourably with a travel time of up to 14hrs as offered by other airlines.

Below is a summary of the new schedule, with the start date:

- Northbound: Johannesburg - Lagos | Every Thursday, from 7 October 2021
- Southbound: Lagos - Johannesburg | Every Tuesday, from 11 October 2021
