

Fly Namibia

**We rise,
by lifting others.**

Who we are

FlyNamibia is an independent airline that prides itself in connecting people through local and regional flights, whether for business or travel purposes.

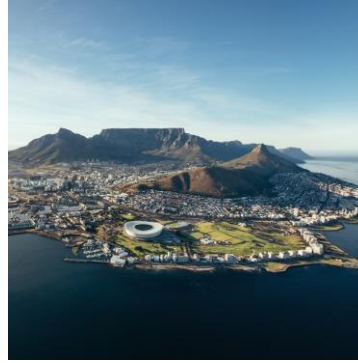

Born from an immense passion for aviation and our home country, FlyNamibia aims to be an airline that the nation can be proud of. A carrier that will ensure Namibia's colours are represented in clear blue skies across the African continent and the world.

With our existing domestic routes from Eros Airport in Windhoek to Ondangwa, Oranjemund, Walvis Bay, Rundu and Katima Mulilo, as well as our international route between Hosea Kutako International and Cape Town International, we have already laid the groundwork for connection. New routes are on the horizon and we will continue to expand our product offering and services to our existing loyal customers and all future customers.

We can't wait to welcome you aboard.
